Yapster Integration

Keep employees feeling connected to your business and to one another

Integrate Reward Gateway's communication functionality with Yapster to ensure employees stay 'in the know' via timely alerts for blogs, news, and updates. Without ever leaving Yapster, users remain connected and informed of any company updates that appear on their Reward Gateway employee engagement platform – all within a tool they use every day.

Our Yapster integration provides:

Instant and seamless integration

Ease of use

Increased visibility of good work

Time savings

Real-time alerts

Our Yapster integration helps you with:

Automation
Sync users from a variety of apps for easy data management

Authentication
Reduce administrative time needed for employee access management and enhancing security
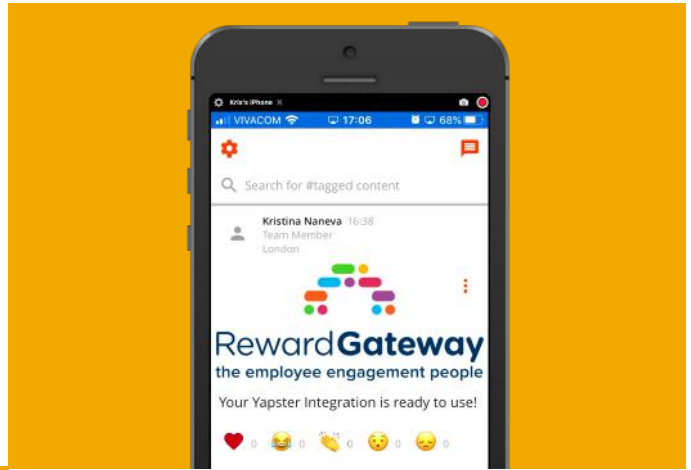

One-click sign-on
Your employees will enjoy a seamless experience to access important content

Each integration is supported by a dedicated Reward Gateway Client Success Manager to ensure an effortless launch and continued engagement.

Make it easy to stay connected

In today's working world, employees are being asked to navigate multiple platforms and applications to get their work done. Reward Gateway helps simplify how employees stay connected with a seamless integration to Yapster. Employees can link directly to blogs and news updates from within Yapster without additional password or sign-on steps.
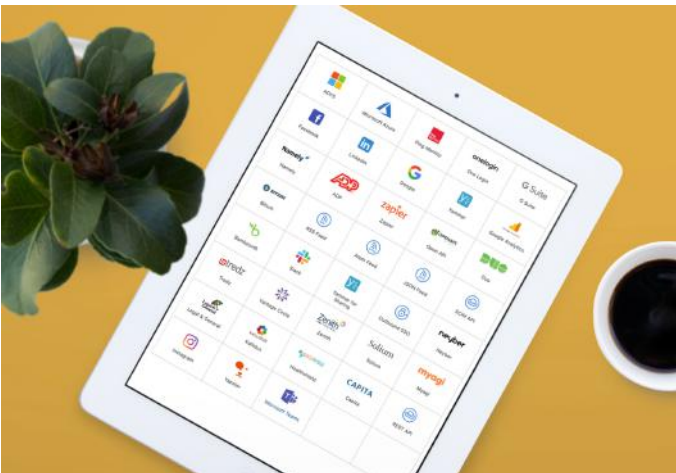

Alerts ensure just-in-time updates

With custom alerts set up, employees will be automatically notified when a new blog is posted or any important updates are added to their Reward Gateway engagement platform. They can control whether they want to receive on-site emails, browser and mobile notifications to reach them wherever they are.

Free up your time with automation

As HR technology becomes more advanced and the amount of platforms and programs you offer expands, you need to ensure the right information is sent to the right places instantly. Our Yapster integration helps to save you time by letting you post information once, knowing that it will automatically be accessible across platforms.

Self-service integration dashboard to work for you

Our clients get exclusive access to our Integrations Dashboard housed on our management system, Reward Manager. Learn more about available integrations and get guidance and simple instructions on how to set these up.
