

# Reward Gateway's Quarterly Product Update April- June 2020

## The Q2 product releases are here!

12 improvements across 8 different products with a lot more happening in the background.

# **Employee Communications**

#### **Onsite Alert Banner**

A way to inform employees about current situations or unpredicted changes as quickly and efficiently as possible.

**Core Platform** 

#### **RG REST API**

We have opened up our API publicly and it is now available to all of our clients and third-party vendors.

SmartPay<sup>™</sup> Employee Files

## **Employee Files**

Use the platform to house important digital files for employees to access at any time. Each file is specific to the employee and will be associated with their account only.

**Employee Recognition & Reward** 

# Self-nomination and employee suggestion programs

The capability for employees to nominate themselves for an Award through your R&R scheme.

## Nomination review and approval

Nomination approvers can access approvals directly from the front-end of their platform, rather than going through Reward Manager.

## **Social Wall filtering with Enterprise Fields**

Clients can choose to have Enterprise Fields added as filters on the Social Wall.

**Employee Surveys** 

## **Survey Reporting**

Clients using custom surveys can now include the employee's unique ID for non-anonymous responses when exporting the survey reports.

## **Customer Surveys**

Expanding our survey product to allow our clients to survey more than just their employees. Clients can create a survey and then either upload a file of email addresses or have the survey accessible via a URL.

Employee Recognition & Reward

Improved format for InstantAwards PDF certificates

A new and improved PDF format that displays the award message text more clearly and allows senders to write longer messages than previously, all the while ensuring the artwork stands out.

Total Reward Statement (TRS)

**Links to benefits** 

Clients with benefits that are run offline or outside of RG can now add a button directing employees to a SmartPage with more details on the benefit or to a website where they can access the benefit.
